

CHEM LINK®

DURASIL®

HIGH PERFORMANCE SILICONE SEALANT

DuraSil is a neutral-cure silicone construction sealant used for many applications. It has outstanding weather resistance and durability in dry, cold or wet conditions. DuraSil is stable to temperatures up to 400°F (204°C). DuraSil bonds well to Kynar 500® PVDF coated metal, copper, glass block and other building materials. DuraSil may be used to seal windows, doors, curtain walls, roofing, gutters and in solar, transportation and marine applications.

- Neutral-cure — will not promote corrosion of metal
- Solvent-free, 100% solids will not shrink upon curing
- Non-slump, can be applied vertically and overhead
- 10-minute skin over
- Color stability, will not suntan
- Color matching available in bulk quantities
- ± 50% joint movement
- Made in the USA — ISO 9001:2015 certified processes
