

# HIGH-PERFORMANCE ADHESIVES, SEALANTS, SYSTEMS & ACCESSORIES

**CHEM LINK**  
A SOPREMA GROUP COMPANY

## **M-1®** UNIVERSAL ADHESIVE/SEALANT

5 fl. oz. | 10.1 fl. oz. | 20 fl. oz. | 28 fl. oz.  
2 gal. | 5 gal.

Larger packaging sizes available made to order.

- Designed for bonding and sealing a wide range of construction materials
- Use as an emergency underwater repair, can be applied in wet conditions
- Will not attack insulation products or unfinished metals
- High tensile, shear & tear strengths — with virtually no VOCs
- Meets ASTM E84, Class A and Miami-Dade approved
- Validated for  $\pm 35\%$  joint movement, isocyanate-free and paintable after 24 hours

## **DURALINK® 50** SUPER-ADHESION SEALANT

10.1 fl. oz. | 20 fl. oz.

Larger packaging sizes available made to order.

- Designed for use in roofing, cementitious siding, metal architecture, curtain wall construction and joints subject to movement
- Bonds to difficult surfaces such as anodized metals and Kynar 500® PVDF coated metals
- Non-slump — applies vertically overhead
- Isocyanate-free, solvent-free, 100% solids — will not shrink, virtually no VOCs
- Validated for  $\pm 50\%$  joint movement, paintable after 24 hours

## **DURALINK® 35** MULTI-PURPOSE SEALANT

10.1 fl. oz. | 20 fl. oz.

Larger packaging sizes available made to order.

- High-performance, economic sealant designed for uses from window seals, sealing joints in door frames, parapets, and block & masonry — bonds to difficult surfaces such as Kynar 500® PVDF coated metals
- No outgassing on damp surfaces
- Non-slump — applies vertically overhead
- Isocyanate-free, solvent-free, 100% solids — will not shrink, virtually no VOCs
- Validated for  $\pm 35\%$  joint movement, isocyanate-free and paintable after 24 hours

## **DURAGLAZE® PLUS** SUPER ADHESION SEALANT

10.1 fl. oz. | 20 fl. oz.

Larger packaging sizes available made to order.

- Premium grade, moisture-cure sealant designed for use in fenestrations, perimeter sealing (windows, doors and panels), metal architecture, curtain wall construction and joints subject to movement
- No outgassing on damp surfaces
- Solvent-free, 100% solids — will not shrink, virtually no VOCs
- Non-slump — applies vertically overhead
- Validated for  $\pm 50\%$  joint movement, paintable after 24 hours
- Miami-Dade approved

## **DURASIL®** HIGH-PERFORMANCE SILICONE ADHESIVE/SEALANT

10.1 fl. oz. | 20 fl. oz.

Larger packaging sizes available made to order.

- May be used to seal windows, doors, curtain walls, roofing, gutters and in solar, transportation and marine applications — bonds to difficult surfaces such as Kynar 500® PVDF and Tedlar® PVF
- Neutral cure — will not promote corrosion on uncoated metals
- Non-slump — applies vertically overhead
- Solvent-free, 100% solids — will not shrink, virtually no VOCs
- Validated for  $\pm 50\%$  joint movement

## **DURASIL® SL** HIGH-PERFORMANCE SELF-LEVELING SILICONE ADHESIVE/SEALANT

2 liter

- Self-leveling silicone used in E-Curb® and ChemCurb® penetration seals, primarily used for hot pipe penetrations on low slope roof applications
- No outgassing on damp surfaces
- Neutral cure — will not promote corrosion on uncoated metals
- Solvent-free, 100% solids — will not shrink, virtually no VOCs

## **METALINK** HIGH-PERFORMANCE METAL ROOF SEALANT

10.1 fl. oz. | 20 fl. oz.

Larger packaging sizes available made to order.

- Multi-purpose, neutral-cure, silicone construction and roof sealant that bonds to difficult surfaces such as Kynar 500® PVDF and Tedlar® PVF
- Will not promote corrosion on uncoated metals
- Non-slump — applies vertically overhead
- Isocyanate-free, solvent-free, 100% solids — will not shrink, virtually no VOCs
- Validated for  $\pm 50\%$  joint movement

## **1-PART®** POURABLE PENETRATION SEALANT

10.1 fl. oz. | 1/2 gal.

Larger packaging sizes available made to order.

- Self-leveling, moisture-cure sealant designed for use in pitch pans and E-Curb and ChemCurb penetration seals
- No outgassing on damp surfaces
- Solvent-free, 100% solids — will not shrink, virtually no VOCs
- Extended warranties available

## **CLEAR** GENERAL PURPOSE SEALANT

10.1 fl. oz.

- High-performance, moisture-cure sealant that can be used to seal a wide range of construction materials
- Will not attack insulation products or unfinished metals
- No outgassing on damp surfaces
- Solvent-free, 100% solids — will not shrink, virtually no VOCs

## **CHEMCURB/ E-CURB** PENETRATION SEALS

See Chem Link Product Catalog for  
available kit options.

- Replaces old style pitch pans with precast components
- Rounded corners eliminate disbonding at the sides with penetration movement
- 10-year warranty out of the box with a renewable warranty after inspection
- Multiple sizes available including straights and corners for custom configurations
- Systems for different roof types and applications: hot-pipe, low-slope, steep-slope, metal/pitched, and vertical penetrations

# HIGH-PERFORMANCE ADHESIVES, SEALANTS, SYSTEMS & ACCESSORIES

**CHEM LINK**  
A SOPREMA GROUP COMPANY

## M-1® CR

CLEAN ROOM CERTIFIED  
ADHESIVE/SEALANT

10.1 fl. oz.

- Moisture-cure, fast-setting sealant designed for environments where molecular airborne contamination can impact human health or clean room manufacturing operations and is specified for biomedical, electronic and aerospace clean rooms
- No outgassing on damp surfaces
- Solvent-free, virtually no VOCs, validated for  $\pm 25\%$  joint movement

## M-1® MARINE GRADE

MOISTURE-CURE ADHESIVE/SEALANT

10.1 fl. oz.

- Designed for applications above the water line or after curing below the water line and in areas where solvent based materials are not tolerated
- Isocyanate-free, solvent-free, 100% solids — will not shrink
- No outgassing on damp surfaces

## NOVALINK® 35

JOINT SEALANT

10.1 fl. oz. | 20 fl. oz.

Larger packaging sizes available made to order.

- Moisture-cure joint sealant designed for application in damp, dry or cold climates
- Bonds to most building materials including concrete, glass, metal and wood
- Will not stain absorbent stone substrates like limestone or marble
- No outgassing on damp surfaces
- Solvent-free, 100% solids — will not shrink, virtually no VOCs
- Validated for  $\pm 35\%$  joint movement

## NOVALINK® TX

TEXTURIZED ELASTOMERIC SEALANT

10.1 fl. oz.

Larger packaging sizes available made to order.

- Moisture-cure joint sealant designed for application in damp, dry or cold climates
- Textured appearance compliments rough surfaces
- No outgassing on damp surfaces
- No primer required for most construction materials
- Isocyanate-free, solvent-free, 100% solids — will not shrink, virtually no VOCs
- Validated for  $\pm 35\%$  joint movement, paintable after 24 hours

## NOVALINK® SL

SELF-LEVELING SEALANT

28 fl. oz. | 2 liter

Larger packaging sizes available made to order.

- Moisture-cure sealant designed for application on horizontal joints in concrete construction such as driveways, sidewalks, plaza decks, balconies, stairwells, parking structures, roof decks, and surrounding fountains and swimming pools
- No outgassing on damp surfaces
- Will not stain absorbent stone substrates like limestone or marble
- Solvent-free, 100% solids — will not shrink, virtually no VOCs
- Validated for  $\pm 25\%$  joint movement, paintable after 24 hours

## NOVALINK® FP

WATERPROOFING MASTIC

10.1 fl. oz.

- Moisture-cure, high-quality, waterproofing mastic designed to fill, seal and level grout lines, voids, seams and surface damage on construction materials prior to application of liquid waterproofing
- Bonds to damp concrete — green concrete friendly
- Solvent-free, 100% solids — will not shrink, virtually no VOCs

## WALLSECURE

HIGH-PERFORMANCE  
WALL & BLOCK ADHESIVE

10.1 fl. oz. | 28 fl. oz.

- A moisture-cure, fast-setting adhesive with excellent adhesion to drywall, wood, metal, concrete, landscape blocks, capstones and other masonry substrates
- Ideal for filling gaps or forming bonds on irregular surfaces without shrinking
- No outgassing on damp surfaces
- Solvent-free, 100% solids - will not shrink, paintable after 24 hours

## BUILDSECURE

MULTI-PURPOSE  
CONSTRUCTION ADHESIVE

10.1 fl. oz. | 20 fl. oz. | 28 fl. oz.

Larger packaging sizes available made to order.

- Moisture-cure, fast-setting, non-burning structural adhesive designed for various "panel on frame" assemblies in commercial and residential construction
- Complies with all OSHA, State, Local and Federal air quality regulations, HUD UM-60 and ASTM D3498 specifications for bonding sub-floor construction
- Solvent-free, 100% solids — will not shrink, virtually no VOCs
- No fumes, non-toxic and non-flammable

## TILESECURE

ROOF TILE ADHESIVE

10.1 fl. oz.

- A moisture-cure tile adhesive formulated for installation and repair of clay, composite, concrete, and slate roof tiles
- Will not crack in extreme cold or slump due to softening, high temperatures
- Solvent-free, 100% solids — will not shrink, virtually no VOCs, paintable after 24 hours
- No fumes, non-toxic and non-flammable

## FLOORSECURE™

MULTI-PURPOSE WOOD &  
TILE ADHESIVE

2 gal. | 5 gal.

- Odorless adhesive that offers easy installation of flooring substrates and is safe for installation in occupied buildings such as schools, hospitals or food processing plants, where solvent vapors and odors are not tolerated
- OSHA compliant — contains no carcinogens, mutagens or cancer causing chemicals
- No outgassing on damp surfaces
- Solvent-free, 100% solids - will not shrink, virtually no VOCs

## NOVALINK® WM

LIQUID WATERPROOFING  
MEMBRANE

2 gal. | 5 gal.

- A moisture-cure, cold-applied, waterproofing membrane that cures by exposure to atmospheric and substrate moisture to form a continuous, tough, reinforced seal
- Bonds to damp concrete - green concrete friendly
- No outgassing on damp surfaces, non-flammable with very low odor
- Solvent-free, 100% solids — will not shrink, virtually no VOCs
