

CHEM LINK®

# NOVALINK® TX

TEXTURIZED ELASTOMERIC SEALANT

**NovaLink TX** is a gun-grade polyether, moisture-cure, texturized elastomeric sealant formulated for use on expansion joints where a textured appearance is required. NovaLink TX has excellent adhesion to most construction materials, including cementitious siding, concrete, glass, roofing, metal and Kynar 500® PVDFcoated metals. NovaLink TX is isocyanate-free, paintable and SWRI validated for ± 35% joint movement.

- Solvent-free, 100% solids will not shrink
- Textured appearance compliments rough surfaces
- No outgassing on damp surfaces
- Single-component helps reduce labor costs
- No primer required for most construction materials
- Paintable after 24 hours
- Made in the USA - ISO 9001:2015 certified processes
